

Company Profile 2019-2020

GIBAM

GIBAM INDIA is the Indian headquarter of Gibam Shops SpA, the world-known designer and manufacturer of shop-fittings and commercial furniture for hotels and public spaces. Based in Maharashtra, Gibam India takes roots in the know-how and expertise of the mother company, but manufactures all its products in India, in full commitment to provide Indian clients with quality furniture at Indian price. Gibam India is the point of reference for retailers and interior designers that need quality modular furniture for commercial areas, and operates also taking charge of full project execution in particular in West-South India.

Our Presence

SHOP FORMATS

Development of interior look & feel, dedicated furniture and technical solutions.

METAL ACCESSORIES

Browsers, racks, hooks, bars and arms, made with the strength of steel and the attention to detail that we always put in what we do.

CHECKOUTS

Supermarket checkouts, static or with conveyor belt, from the simplest small counter to many meters long models for cash&carry.

COUNTERS

Receptions, counters for any kind of store, where design meets with durable and special materials, like corian, stone, solid wood.

FRUIT & VEGETABLES FURNITURE

The ideal furniture solutions for this vital area of every supermarket. Developed with attention to practical needs, anti-rust, strong but sleek, flexible and down-to-earth.

METAL SHELVINGS

The basic component of every supermarket.

SHOP IN SHOP

Creation, engineering, manufacturing and installation of shop-in-shop, the most sought-after display of a brand inside a large department store. We have done so many of them that you don't know that you have seen it.

FULL STORES

The ability to create modular store systems is at the core of the development of full stores, from production to installation. In this way, a store image and functionality remains the same, no matter where.

MODULAR OFFICE FURNITURE

A complete range of office furniture, covering workstations, storage, manager's office, reception and meeting rooms.

MODULAR CHANGING ROOMS

Finally a retail can place a stylish and functional changing room in his store, and move it freely when needed. No gypsum work needed. Just furniture.

We Manufacture

The word "Manufacture" comes from ancient Latin and means "to do with the hands". Well, there are lots of hands involved in what we do in our factory, but nowadays a big part of the work done, is done by machines. The production of modern wooden furniture and of metal counters made by Gibam India comes from a factory equipped with panel saws, boring machines, post-forming machines, hot press for lamination, CNC routers, edge-banding machines, laser router for acrylic sheets, PU coating plant, welding and polishing machines, metal bending machine.

Keeping production under one roof ensures control of time and quality and gives the flexibility required by today's market: and this roof is in India, where we are proud to manufacture.
